4	
<b>-</b>	Jason Tuvel, Esq., on behalf of the
5	applicant. Harry Tuvel, Civil Engineer and Planner
C	described the application request for 107 Kipp
6	Avenue. This current property has some unique
7	characteristics. The property is at a corner,
/	facing a warehouse on one side, across the street,
8	and a Firehouse behind it. The proposal is for a
O	new two-family dwelling, which is a permitted use
9	in the zone. The variance relief is unique due to the eight foot topography change seeking a height
J	variance for approximately 30.5 feet, where 25 is
10	required. However, the two and a half story
10	requirement of the ordinance is being adhered to.
11	No additional floor area or a story as a result.
<b>-</b>	The side and rear yards will comply to code.
12	The application will be a
	significant upgrade to the area. Applicant is
13	proposing a two-family semi-attached dwelling which
	is permitted in the zone.
14	The property is located in the R18
	medium high density zoning district, and the
15	dwelling is consistent with the surrounding area.
	There is no storm water management
16	currently located on site and the proposal is to
	comply with the storm water regulations,
17	constructing seepage pits, and will comply with the
	Board Engineer's report complying to all requests
18	on storm water management.
	The existing dwelling will be
19	demolished. The retaining wall (engineering
	certificate required on the existing 7,500 square
20	foot lot.
0.4	The property can accommodate the
21	height deviation without any detriment to the
2.2	surrounding area. No impact on light, air, open
22	space. No additional traffic or density present in
22	the application request.
23	Applicant agreed to lowering the
2.4	attic height for AC units needing a four foot
24	clearance for servicing HVAC equipment. Appliant
25	agreed to a pull-down stair accommodating the
40	board's concern.

1	Plans need to be more specific on
	what is located in the attic space.

J	
4	Geri Ingran, Kipp Avenue resident
4	expressed concern regarding the damaged retaining
	wall. It will comply with all construction code
5	regulations.
	The applicant is carrying their
6	application due to discrepancies on the plan. The
	Board had concerns with the plans as submitted.
7	Applicant will meture with "
/	Applicant will return with revised plans, looking
_	at the height variance, submitting revised plans
8	showing the attic being unfinished, mechanical room
	location, and will return with the Architect of
9	record to answer questions.
